Description

Octave horn antenna LB-OH-159-20-C-TF, operating from 4 to 8GHz with a nominal 20dB gain and low VSWR 1.5:1 with TNC Female output connector. The model LB-OH-159-20-C-TF has uniform gain through its frequency span, providing efficient performance characteristics and directionality. It can handle 150W continuously and 3000W peak power. Constructed of lightweight corrosion-resistant aluminum, the antenna will provide years of trouble-free indoor and outdoor service. This octave horn antenna is linearly polarized and ideally suited for EMI testing, direction finding, surveillance, antenna gain and pattern measurements and other applications.
